

draft

```
components:
  - Data Collection System:
    inputs:
      - Biometric behavior data from authorized admin users
    outputs:
      - Raw biometric behavior data

  - Feature Extraction System:
    inputs:
      - Raw biometric behavior data
    outputs:
      - Extracted biometric features

  - Machine Learning Model:
    inputs:
      - Extracted biometric features
    outputs:
      - Authentication results

  - Rule-Based System:
    inputs:
      - Authentication results
    outputs:
      - Anomaly detection results

  - User Interface:
    inputs:
      - User credentials
    outputs:
      - Authentication results

inputs:
  - Biometric behavior data from authorized admin users
  - User credentials

outputs:
  - Raw biometric behavior data
  - Extracted biometric features
  - Authentication results
  - Anomaly detection results
```
